The Periodical Literature.

REPUBLICATION OF
The London Quarterly Review,
The Edinburgh Review,
The North British Review,
The Westminster Review,
—AND—
Blackwood's Edinburgh Magazine.

The wide spread fame of these splendid Periodicals renders it needless to say much in their praise As literary organs they stand far in advance of any works of a similar stamp now published, while the political complexion of each is marked by a dignity, candor, and forbearance, not often found in works of a party character

They embrace the views of the three great parties in England—Tory Whig and Radical—"Blackwood" and the "London Quarterly" are Tory the "Edinburgh Review" Whig, and the "Westminster Review Radical The "North British Review is more of a religious character having been originally edited by Dr Chalmers and now, since his death being conducted by his son in law, Dr Hanna, associated with Sir David Brewster Its literary characters of the very highest order—The Westminster," though *reprinted* under that title only, is published in England under the title of the "Foreign Quarterly and Westminster." It being in fact a union of the two Reviews formerly published and reprinted under separate titles It has, therefore the advantage by this combination of uniting in one work the best features of both as heretofore issued

The above Periodicals are reprinted in New York, immediately on their arrival by the British steamers in a beautiful clear type on fine white paper and are faithful copies of the originals Blackwood's Magazine being an exact *fac simile* of the Edinburgh Edition

EARLY COPIES

Prepared by STEPHEN JEWETT son of the late Dr STEPHEN JEWETT of Rindge, N H

Principal Office,—No. 30, Indiu Street, Boston.

Please read the following certificate of a highly respectable and aged gentleman

RINDGE N H, April 1 1848

To all whom it may concern

I the undersigned do hereby certify, that I was acquainted with the late Dr Stephen Jewett from my boyhood up to the time of his death and having been his near neighbor can testify to his medical skill and knowledge of Herbs with hundreds of others now living and that in the year 1813 I was afflicted with pundic palpitation of the heart pain in the side, and general debility so as to be *unable to attend to any business* and being a neighbor of the late Dr Stephen Jewett I had recourse to his far famed *Bitters and Plaster* and by the use was permanently cured Since the above named date I have used Dr Jewett's medicines with equally good effect as prepared by Stephen Jewett son of the late Dr Stephen Jewett of Rindge N H and I cheerfully recommend them to the public as safe and invaluable medicines—and being composed entirely of vegetables, I think them far better suited to the disease of our climate than med cines commonly used of minerals or foreign nostrums, Try them and judge from facts and experience I consider Dr Stephen Jewett's Strengthening Plaster far superior to any external application for the purposes for which it is recommended of any that I have ever known

EBENEZER BLAKE

DR STEPHEN JEWETT'S
Health Restoring Bitters.

These Bitters acting as they do upon the Stomach Liver and Bowels removing all the morbid secretions thereby purifying the blood and invigorating the digestive organs not only cure diseases that already exist but they also fortify the system against all attacks of disease It is a common remark among those who have used Dr Jewett's Bitters that they have but little fear of being sick The remark is strictly true, for while the stomach and bowels are kept in a good condition and the blood pure all the great predisposing causes are removed for while system is fortified against those morbific influences which under less favorable circumstances would have engendered perhaps fatal disease

In order but the public may know that they are offered a truly excellent article we append the following certificate which may be seen with numerous others in their original, by calling on the proprietor

London May 15 1848.

To all whom it may concern—This may certify that I have been for years troubled with a scrofulous humor which has been very troublesome and was fast undermining my health and had severe pains in the back loss of appetite, lagour and general debility

A short time since I commenced taking Dr Jewett's Health Restoring Bitters and in a very short time my humors and pains left me my appetite improved and my health has not been so good for years all of which I attribute to Dr Jewett's Health Restoring Bitters

(Mrs) E H RUSSELL Beach Street

DR STEPHEN JEWETT'S
Pulmonary Elixer.

Nearly one third of all the deaths that occur in New England are caused either directly or indirectly by diseases of the Lungs and Chest Why is this great sacrifice of human life? How happens it that the brightest intellects of the highest promise the hope and support of declining years are laid down in early life? Why is it that so many families have been made desolate by that fell destroyer Consumption? And how happens it that so many interesting and lovely children are cut down every year by those dread diseases the Quinsy and Croup? Is it because these diseases are incurable? Physicians will tell you these diseases can be cured—if taken in season

It is true these diseases can be cured with almost absolute certainty—if taken in season Everybody should be aware of this fact and provide themselves with Dr Jewett's Pulmonary Elixer

The following certificate among numerous others which have been received are appended for the benefit of those who desire to see certificates

WINCHENDON Mass March 10 1848

Stephen Jewett—Dear Sir—I feel it a duty to you and to the public generally to inform you all who may have been afflicted as I have that I have been entirely cured of a severe and long continued cough by one bottle of your Pulmonary Elixer—For months I have been a great sufferer I had pain in my left side sore throat constant cough, and raised a good deal of bad looking matter My strength was gone and my flesh was wasting away I took many things without benefit and was steadily getting worse till I procured your Pulmonary Elixer which has cured me and I cheerfully recommend it to all who are troubled with coughs

Yours truly

DR. CUMMINGS'S
Compound Extract of Sarsaparilla and Dock.

THE articles above named are the principal ingredients of the medicine With these nutritive vegetable origin are combined designed to render them more active and consequently more immediately effective

The Dock or rather a species of it now ranks as a medicinal plant second to no one of the vegetable kingdom whom the proprietor has consulted in the preparation of the compound he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and is perfectly satisfied that they possess all the properties which have been ascribed to them Recently he conceived the idea of uniting them which has resulted in the production of the compound In it the ingredients are found to act in harmony and to combine the qualities which they separately possess

A large portion of Sarsaparilla is soluble than has generally been supposed The extract most to be relied on and least liable to decomposition is procured by subjecting the root to the action of the menstrua usually employed in extracting its virtues, for a long time without heat or any other accelerating agent Dock is permitted to be used in the compound that has not been obtained by this process and that has been less than a year in preparation

The Compound is recommended for Scrofulus Erysipelas Ulcerous affections Eruptions, and Mercurial diseases Also for the numerous maladies arising from sedentary employments occupations of a hurrying and fatiguing nature intense application, exposures to extremes of heat and cold overtasking the physical powers and other abuses of the constitution among which are Neuralgia Piles Affection of the Liver Bilious Complaints and Dyspepsia or Indigestion

In diseases of warm climates with which the proprietor become familiar in his practice in Havana some years since the compound will prove particularly efficacious both as a remedy and preventative

This medicine has been for some time in use in this city, where the proprietor has passed nearly half a century of his professional life It was extensively prescribed by him while in practice and it is believed to be in favor with his medical brethren in general for whom he is known

The Great Remedy for Gonorrhœa.

GLEET Stricture and all analagous complaints, is DR DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known having practiced in the principal cities in the Union during the last 40 years In only reason for introducing the Paste in this public manner is the consciousness that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks

Dr Douglass solemnly affirms that during his practice of forty years this Paste has never in one single instance failed of effecting a cure in a few days with or any change of diet or hindrance from business He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians, for months and even years but after using the Paste for a few days the urgent symptoms disappeared, and the patients were in charge pronounced entirely cured

If the unfortunate instead of knowingly themselves with quack nostrums would purchase only one box of the Arabian Paste we should not see so many emaciated bodies and sallow countenances as we do at the present time

☞In case this Paste should fail to effect a cure in the shortest possible time ten times the price paid for it will be gladly refunded on returning the empty boxes

For sale only by the original inventor and sole proprietor Dr PETER G DOUGLASS at his Office No 50 Union street Boston at $5 per box where he can be confidentially consulted on every disease incident to the human frame and the patient rely upon the most beneficial course of treatment that can possibly be adopted

WHIG NOTICE!

The Whigs of Bangor are notified that a general caucus of Whigs will be held at the CITY HALL on

THURSDAY EVENING, March 8th,

for the purpose of choosing a City Committee, and for making such arrangements as may be deemed necessary for the Municipal Election for the present year Per order of the City Committee

Bangor, Feb 24 1849

☞ In a few days the administration of the General Government will be under the direction of the Whigs, and so far as they have the power they will be held responsible for the character and influence of that administration By a generous union and a noble effort of the Whig party Gen Taylor has been called to preside over the Executive Department of the government and the government placed upon the Whig track with the single exception of a majority in the U S Senate All this cannot but be highly gratifying to every Whig But in the joy of the occasion it must be borne in mind that now comes the responsibility of sustaining a Whig administration To do this effectually will require watchfulness and effort and to these every Whig in every state, at town and hamlet should give his influence and labor The good to be expected of a Whig administration can only be secured [by a whole hearted maintenance and support of that administration

It is the duty too of every Whig living in a State which is in political opposition to the Whig General Government to do what he can to redeem that State and to bring it to support the Republican Government of the glorious Union of the United States of America He ought not to rest contented while his State is opposing the General Government and doing all it can to defeat its measures and to destroy its influence and to bring it in to difficulty and to involve it in disasters

These considerations we deem sufficient to cause every Whig to turn away his ear from every proposition no matter from what quarter it may come which shall weaken the strength of the Whig party or serve to divide it counsels or to scatter its influence The first great leading and absorbing duty of Whigs is to maintain their organization against all assaults from foes without or foes within If they would exercise the influence which the times and their position requires they must be able to show their strength

Here then we find an argument sufficiently strong without going any farther, for the determined position of the Whigs of Bangor to put the election of the municipal officers upon Whig ground — If they can elect Whig officers they are this year most certainly bound to do so, and if they cannot elect them they are bound to try to their utmost, and come as near it as they can

Whatever issues may be offered however plausible an ex party view of other aims and objects may be made to appear they should go straight forward in the full belief that any diversion of effort or influence from the Whig cause will be sure to weaken the Whig cause and to expose the whig party to defeat and to prevent the good effect of Whig measures from being enjoyed by the country Against all such issues measures and influences the Whigs of Bangor should keep aloof

The Taylor Festival in Boston.

The Taylor Festival, by the Rough and Ready Association of Boston, on the 22d of February, was a grand affair A procession was formed at the Tremont Temple, and marched to Faneuil Hall escorted by the Fusileers, accompanied by the Brigade Band

The Hall was very handsomely decorated — At the head was a full length portrait of General Taylor, standing beside his favorite war horse The words, 'General Taylor never surrenders,' were inscribed over the portrait On the table in front of the President was a bronze bust, encircled by a wreath of evergreen The names of the President of the United States appeared upon the panels of the galleries—Washington being inscribed upon the panel beneath the Eagle, flanked on the right and left by the names of Taylor and Fillmore The following, extracted from one of Gen Taylor's letters, appeared at the side name

"I have no private purposes to accomplish, no party purposes to build up, no enemies to punish, nothing to serve but my country

On the opposite side, near the name of Mr Fillmore, was the following

"This election raises up a national party, occupying a middle ground and leaves the fanatics and disunionists and North and South without the hope of destroying the fair fabric of our Constitution

American shields were suspended beneath the galleries upon the heads of the columns, bearing the following inscriptions

ZACHARY TAYLOR, born in Orange Co, Va, Nov 24, 1784
Commissioned by Jefferson, May 3 1808
Victorious at Fort Hamlin, Sept 5 1812,
Member of the Military Board 1826,
Victorious at the Bad Axe, Aug 2, 1832
Victorious at Okeechobee, Dec 25, 1837,
Victorious at Palo Alto, May 8 1846,
Victorious at Resaca de la Palma, May 9, 1846,
Capitulation of Monterey, Sept 24 1846,
Victorious at Buena Vista, Feb 22 1847

Festoons of flags were suspended from the ceiling to the galleries

The tables were most bountifully spread, the entertainment having been got up by Mr John Wright in his best style

Major B H Norton, as President of the Rough and Ready Association presided on the occasion Upon his right were seated Gen Dearborn, Mayor of Roxbury, Judges Lansing and White of New York and Connecticut, upon his left, Capt Albert Pike of Arkansas Col I H Wright, Col Jones of Philadelphia, and Thomas Power, Esq of this city

After partaking of a fine dinner, various addresses were made, toasts, songs, and music lent their charms and gave zest to the occasion

Among the toasts were the following: —

Zachary Taylor—On the battle field he displayed the courage, judgment and humanity of the father of his country, in the Councils of the Nation may we not anticipate a display of the wisdom, prudence and foresight which were the distinguishing characteristics of Washington

This Day—Its arrival and annual return will ever be hailed with feelings of gratitude, as having given birth to the FIRST and secured the services of the SECOND Washington

When the exalted qualities of intelligence, independence, firmness, patriotism, and the genius of action are united in the President, whom the people have delighted to honor, we have the assurance of a wise administration

☞ The Whigs of Newburgh, Hampden and Dixmont, have made arrangements for a grand Inaugural Ball, at G P Brown's Hotel, in Newburgh, on the 5th of March,

☞ Our correspondent "A D" wishes to discuss the question in our columns "Shall the next Municipal Election be effected on a political or a temperance basis? The question is foregone — There is to be a Whig basis most certainly whatever other basis there may be, and our belief is that the cause of temperance is quite as safe in a Whig administration of the city as in any other hands We learn that an effort will be made to set up a temperance organization in opposition to the Whigs Of course we cannot be expected to favor such an effort, and we trust no true Whigs will join in any crusade against the Whigs of this city as they may be assured that any such movement will inure to the advantage of those who have a strong fancy for defeating the Whig party

An officer of the army writes to St Louis from Los Angelos, California, that the number of regulars in the service in that country is not more than seventy five The remainder of the force have deserted and gone to the mines, carrying with them their horses He says that by Spring there will not be twenty regular soldiers in the country All the Alcaldes have resigned their offices and gone to the placer

☞ The Watertown (Wis) Chronicle says — The fishing at Beaver Dam continues as good as ever Tons of the finest pickerel have this winter been taken there At an air hole in the ice, a few miles above the village, fish are taken in large quantities with a common pitch fork Incredible as this may appear, it is nevertheless true One man the other day, caught a cord of fish in this way, in the course of a few hours

The party of California emigrants under the command of Col E W Abbott, late of the Massachusetts Regiment, took their line of march for Corpus Christi on the 30th January Mr Peaslee, the editor of the Corpus Christi Star and Mr Ross, have gone in company with this expedition

Brig Eveline of Newburyport, which sailed from that port some three years, and was purchased for $5000 has been sold to San Francisco for $13 000 The captain returns home by land

Reception of Gen Taylor in Nashville.

NASHVILLE, Feb 3, 1849

The horsemen who had all the morning been stationed three miles below the city at a point which commanded the great bend came galloping at full speed into town at 10 o'clock, proclaiming the approach of the steamer that carried Cæsar and his fortunes

Our city was instantly thrown into the greatest excitement The bells rung the alarm, stores were everywhere closed dwellings evacuated by ladies and children and in thousands our citizens were seen pouring through the streets towards the great square, and across the square in huge masses, in the direction of the landing Carriages crowded with ladies, citizens and countrymen on horseback, and footmen and hacks, old and young, mothers and babes negroes and negresses, boys and school girls making a holiday of it, one and all hurried to the point where the hero of the age was to land Among the multitude I found myself borne along and at length reached the quay from from which the river for two miles was visible Thousands covered the cliffs and shores, the roofs and galleries, the tops of carriages and surrounding elevations Directly in front of the landing was an open carriage drawn by four dun colored steeds decorated with immense national flags, and driven by servants in livery This was in reserve for the President elect, and offered by a fair and opulent, and withal youthful widow, for the purpose Other open carriages were in the line, and private equipage in great numbers completed the awaiting cortege

All eyes were earnestly directed down the river, when a twin column of dark smoke was suddenly seen rolling into the air above the trees, and at the right five thousand voices made the welkin ring The next moment the head and shoulders of the stately steamer emerged in full view from behind the point and the vast crowd sent up another shout out topping the last A cloud of white smoke puffed from the steamer's bows, and in thirty seconds the report of a cannon confirmed the act that the General was on board and from shore, as the boys say From Capitol Hill our artillery, the same old continental that had roared out so loudly at the election of the chief, began to utter its voice and mind the answering thunders of the gun on the height, and that on the steamer the stately vessel ploughed its way city ward, and passing by the quay showed to the eager multitude the old General standing upon the wheel house, between two of the gentlemen in scarlet scarfs of our committee He, like Napoleon was overlapped by his aids, two tall Tennessee gentlemen He was standing immovable, with his hands folded before him, the left clasping the wrist of the right and with an erect military port Everybody recognized him Nobody had to ask which was he? There stood a MAN apparent to the eyes of all, too marked in appearance and too well known by description to need pointing out I wish that you could have heard the mingled shout that greeted him If you have heard a Western yell, you can form some idea of the vocal sounds which the throats of the immense throng emitted — We do not hazzah, nor hurrah we Western folks, but shew our population by a sort of hybrid, cross between an Indian war whoop and a whoop or a salutation quite familiar to old Zachary's ears, for he had before heard Tennesseans yell in a charge in Mexico What with the yelling which the escape-pipes mingled their bellowing, and the whooping and the roar of artillery, and the waving of hats, the flutter of handkerchiefs from carriage windows and galleries, and the beauty of the sun bright morning over all, the scene was worth being a spectator of The boat came gallantly to the landing, lazily belching forth smoke and steam, as if her last greatest work was done, and in a few moments the General landed attended by the Committee, who with the marshals could with difficulty get past the eager and delighted crowd

"Make way for General Taylor' Make way for the President' Clear the way for Old Zach Give Rough and Ready a passage boys' was heard above the confusion At length he reached the elegant equipage prepared for him, and the procession began to move through the city The houses and walks were thronged, and all white in the shops, if cambric handkerchiefs, mean surrender, the General had the honor of receiving this evidence of the capitulation of all the fair ladies of the "City of Rocks

At the corner of one of the streets, a young man ran eagerly out and approached the barouche, while in motion, with his hand extended The General half rose to extend his own with which he grasped that of the other so cordially and frankly that everybody shouted The young person who took this public way of expressing his delight at again seeing the General, had been with him in his battles

The General, at my first glance, struck me as being about the height of Lafayette, with a good deal of the contour of the figure and character of face of Hugh Legare. He looked older than I expected to see him He did not keep his hat off, as he passed; but occasionally removed it with a quick movement, bowed two or three nods and then as quickly replaced it He did not wave his hat His bows were only with his head, not with his body at all, but it was an affable kind, neighbor like bow It made you pleased with him at once, and feel as if you would like to shake hands with him Yet there was a certain dignity in his manner that would remove at a remote distance all coarse familiarity

The General was received at the Hotel by a Committee and addressed by the Governor of the State very eloquently I could not hear the reply of the President elect, I could only see it being in full view of him profile ways He was dressed in a sort of dreadnought blue coat with a color standing up so as to nearly hide his head to his ears Removing his hat and displaying his grey head he began to speak From his manner he spoke earnestly, for his body was continually in motion and his head emphatically moving like a man in earnest conversation He spoke full ten minutes and all the time never removed his hands from behind his back — Of course he made not a gesture, but the ancient courteous bending of his body and the forward motion of his head at every third word, as if he were laying the case down, impressed me and every one, who was beyond reach of his voice, with respect

But in the evening, before going to a brilliant ball which was given him last night, I called to pay my respects The gentleman who ushered me into the ante room left me for a moment alone as the General was just then engaged I was occupied in looking at a painting when seeing my embarrassment he with a politeness that will make me ever after set him down as the most polite and courtly man I ever met with advanced and extended his hand as it both to put me at my ease and grant me the interview which no doubt he guessed I had come for I then introduced myself and mutual acquaintanceship in the army, his visit to Nashville, &c afforded subjects for a very agreeable conversation I was struck with his finely expressive eyes, which sparkle with good nature while they are reflective with deliberate wisdom His countenance though roughly hewn is less harsh than Jackson's and the gesture of his head in conversation is more kindly courteous There is an expression of indomitable will about his mouth to which those who shall try to turn him round their fingers will be likely to bear testimony His movements are quick and short a soldier's habit I occupied at his request a rocking chair, which I however, in vain, endeavored to make him pressing take — I prefer this, was his reply seating himself in a straight cane bottom chair He can endure hardness and voluptuous ease disguise men — What will he do in the luxurious rooms of the White House? He will not be long there before he will turn out his downy beds and sleep in his camp cloak on the floor o night A passenger who came up with him on the Tennessee, says he sat up every night till twelve and rose before day It he introduces those field hours into the Departments there will be a 'muss'

As I was about to take leave fortunate in having found him so long unoccupied, one of the committee came in and said,

'General please step to the door in the hall He rose without question and found three men there who were too diffident to come in to shake him by the hand They were presented as stage drivers' Come in gentlemen, said the General with that real courtesy which so marks all he does Wonderly his manner and gaining confidence by the kindness of his voice, the men entered One of them was a hard looking young man in blue pants, but with a fine, open face in which was a dare devil expression mingled with good nature He looked for a minute at old Zack from head to foot, (the General standing a la Napoleon 'en bivouac, quietly smiling out of the corner of his humorous eyes) and then said bluntly, yet respectfully, with great satisfaction

'General, I'm driver of a stage' I drive the Rough and Ready Coach, and d—— me if she aint a whole team to—fast nags—go by every thing just like yourself, General' and I am come express to see you and I'm satisfied'

'Thank you, answered the General bowing, his eyes twinkling, and the young stage coachman, after giving him another respectful nigh leader sort of turn, tapped his beaver and scrambled

Another young man entered with his hat on and coming up said I was with you General at Monterey I'm glad to see you in my native town The General shook him heartily by the hand, smiled on him as if he had been a son, yet the young soldier never removed his hat, but sat down with it on while the President elect was unconvered The General cast a slight but expressive glance at the hat, and then turned to receive other visitors

One hour was devoted to the reception of ladies

All the young ladies he kissed, and I believe he made some one or two pretty young married ones further privileged class I heard that these were the conditions — perquisites of the office presidential

He leaves this evening with the Louisville committee, leaving behind him an impression of the most agreeable character upon the minds of all our citizens of all classes All who have seen him confess that they have been agreeably disappointed in him, and confidence in the prosperity of his administration is complete

Yours truly, J N

Fellow Workers.

"From the crevice of a cloudlet,
In the eastern grey,
Come a beauteous Beam of lightness,
Leading in the Day
Flowrets woke up as she softly
Stole upon the lands
Joyfully the leaves and grasses
Clapp'd their dew wet hands'
Over field, and over forest,
Sligthly she went,
Like a messenger in earnest,
On some mercy bent

By a quiet, shady hedgerow,
In a sheltered nook,
Where we love to linger, reading
In God's leafy book,
There a tender shoot of greenness
Claimed earth's needful care,
And the Beam, so soft and gentle,
Was beside it there,
And, with streaming hands of silver,
Bent she down in prayer,
While a murmur indistinctly
Rose upon the air,

"Oh, behold this gem of beauty
Passing into life,
Come thou golden god of noontide,
Help it in this strife'
I will tent its slender leaflet
And its fragile flower
Ray of sunshine—fellow worker—
Help me with thy power!'
Light and Heat were fellow workers,
And God bless'd the deed,
For the flower was passing lovely,
Though a simple weed'

There are many germs of goodness
Dormant in each breast,
Lying there in sad half-slumber
And unquiet rest
Fain they would both bud and blossom,
But, within the soil,
Prison'd are they—nothing nearer
To the distant goal.

Come, oh, silvery Beam of Knowledge'
Turn the dumb intent
To a speaking, healthy action—
For this were thou sent.
Be thou, too, a fellow worker,
Glowing Ray of Love;
Pierce within the sheltered hedgerow,
Draw the germ above:
Souls that else were poor and lifeless
Shall evolve new powers,
Weeds upon the wayside worthless
Shall be God's blow'd Flowers!"

Consumption is the great curse of our northern latitudes It is the blight of domestic felicity and the despoiler of beauty It robs the cheek of the blissful bloom the mind of its serenity and the eye of its brilliancy It wastes the form, dims the intellect and plunges its victim into an early grave The young and the old the serious and the gay the city belle, the country lass are alike its prey and its victims Blessings on the man then, whose genius and research furnished us weapons to bid defiance to this Dweller in the Tunnels of old He merits the applause and gratitude of ages,—he should have ours, at least

One of the most important discoveries of modern science for the cure of pulmonary affections is the *BALSAM of WILD CHERRY* and the credit of its discovery is due to the celebrated Dr Wistar This valuable compound has restored thousands of sufferers to health It is expectorant, balsamic and demulcent and it is said to be a purely vegetable, preparation Under its magic influence the most obstinate *coughs colds bronchial irritations* disappear We have used it in our own families and particularly at this season when the greatest cause of disease exist we find it an invaluable preventive

Ayer's Cherry Pectoral,

For Coughs, Colds, Croup, Asthma, Hoarseness, Hooping Cough, Bronchites, and CONSUMPTION

The Remedy that Never Fails!

TRULY Truth is stranger than Fiction! CONSUMPTIVES, *READ THIS!*

NORWICH, Conn., April 26, 1848.

Dr. J. C. Ayer—Dear Sir:—Agreeable to the request of your agent, we will cheerfully state what we have known of the effects of your CHERRY PECTORAL, and they have been astonishing indeed. Mrs. Betsy Wheeler had been afflicted with a severe and relentless cough, which reduced her very low: so low, that little hope could be entertained of her recovery. Numerous remedies had been tried without effect, before the Cherry Pectoral. That, and that alone, has cured her. George Wilkinson, Esq., had to our knowledge been afflicted with Asthma for eleven years, and grown yearly worse, until the Cherry Pectoral has now removed the disease, and he is as free from any of its symptoms as we are. The Rev. Mark Daniels had been so severely attacked with Bronchites as to disable him from his public duties, and nothing had afforded him relief until I (Mr Corning) carried him a bottle of your Pectoral, which cured him at once, and he now officiates as usual in his place. These are three of the cases in which we have known it successful, but never to fail. We have great pleasure in certifying to these facts, and are, respected sir, your humble servant

REV. DAVID CORNING,
Pastor of Preston Plains Church.
HON. JOSEPH CASTLES.
Ex. Mem. Con. Pr. Preston.

Nothing has been offered to the public on which they can so surely depend for relief and cure as this elegant and truly wonderful preparation. Indeed, there is now every reason to hope an infallible Remedy has at length been found for the scourge and terror of our climate—Diseases of the Lungs.

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured. The most severe and chronic cases are weekly eradicated by its extraordinary virtues

James Cumming, Esq one of the assistants in the Lunatic Asylum, Flatbush, Long Island, is a gentleman ready to affirm the following to fact

Blackwell's Island, Sept 14, 1847

Dr Townsend—Dear Sir I have suffered terribly for nine years with Rheumatism, considerable of the time I could not eat, sleep or walk I had the most distressing pains, and my limbs were terribly swollen I have used four bottles of your Sarsaparilla, and they have done me more than one thousand dollars worth of good I am so much better—indeed, I am entirely relieved You are at liberty to certify for the benefit of the afflicted, Yours respectfully,
JAMES CUMMINGS

FITS! FITS! FITS!

Dr Townsend, not having tested his Sarsaparilla in cases of Fits, of course never recommended it, and was surprised to receive the following from an intelligent respectable Farmer in Westchester Country.

Fordham, August 13, 1847

Dr Townsend—Dear Sir I have a little girl, seven years of age, who has been afflicted with Fits We tried almost every thing for her, but without success, at last although we could find no recommendation in your circular for such cases we thought, as the use of it would not hurt her, we would give some of your Sarsaparilla, and are very glad we did, for it not only satisfied my strength, but she has had no return of the Fits, is rosy cheeked, plump and surprises Her is fast becoming rugged and hearty, for which we feel grateful Yours, respectfully,
JOHN BUTLER, Jr

FEMALE MEDICINE.

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient consumption, Barrenness Female Weakness or Falling of the Womb, Costiveness, Piles, Leucorrhœa or Whites, obstructed or difficult Menstruation Incontinence of Urine or involuntary discharges of the same, and for a general prostration of the system—no matter what is the result of inherent cause or cause, produced by irregularity, illness, or accident Nothing can be more surprising than the invigorating influence which the human frame Persons all walks as an illustrate, from taking it, at once become robust and full of energy under its influence It tones and strengthens the whole system in the most wonderful manner It is the great cause of Barrenness — It will not be expected of us, as it is so difficult a matter, to refer to certificates of cures performed, but we are constrained to say that the hundreds of cases which have been reported to us Those kinds of cases where for nine years in vain we attempted after using a few bottles of this invaluable medicine have been blessed with fine healthy offspring

TO MOTHERS AND MARRIED LADIES

It is exercised extraordinary as expressly prepared to meet their peculiar wants It is mild and pleasant to take in no case is there a necessity of confining from business of pursuits, *The turn of life* should neglected to take it, as it is a certain preventative for any of the complaints which then attack the female system on the subject at this time of life *The period may be delayed for several years by using this medicine* Not in it less true that those who are approaching to consumption it is calculated to assist nature by its clearing the blood and invigorating the system in such a manner as to render invaluable for all the delicate diseases to which women are subject

It places the whole system, renews permanently the natural energies—by removing the impurities of the body, but also by natural means to produce monthly evacuations—which is the case of most medicines taken for female we know and disease By using a few bottles of this medicine, many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most efficacious medicine for purifying the system, and removing the sufferings attendant upon child birth ever discovered It strengthens both the mother and child, prevents pain and disease, and renders the system during the food—so those who have used it think it is indispensable It is highly useful both before and after confinement, as it prevents dreadful attention upon child-birth—in Costiveness, Cramps, Swelling of the Feet, Dropsy, Heedache, Low Fevering, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it stands unequal. The great beauty of this medicine is, it is always safe, and the most delicate can almost unconsciously, very few cases require any other medicine—in some a little Castor Oil or Magnesia is necessary, but in the case of fever, and high food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations go readily to destroy the natural beauty of the face, and spoil it of its beauty They close the pores of the skin, and check the circulation, which, when nature is not thwarted by plaster or powder, or the skin injured by the shallow used in *deceptive* purposes is the most exquisite work. It is that which imparts the indescribable shades and freshness of colors in the soft admire, but none can describe This beauty is the offspring of nature—*not of powder or soap* If there is not a life and healthy circulation, there is no beauty If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold, and impure, it will show itself in the face, which is sallow, and if there is pure and active blood, it gives a rich blood to the cheeks, and a brilliancy to their eyes, that is fascinating.

This is the reason why the southern, and especially the Spanish ladies, are so much admired. Ladies lo the north who take but little exercise or are confined to close rooms, and who have their complexions *artificially* by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, youth ing age, and beautiful complexions, they should use Dr Townsend's Sarsaparilla Those females who have tried it, are more than satisfied, are delighted. Ladies of every station call and our office daily.

NOTICE TO THE LADIES.

Those that imitate Dr. Townsend's Sarsaparilla have invariably called it Sarsaparilla or *Compound for Pouring, &c*, &c, and have copied our bills and circulars which relate to the complaints of women, word for word—Females who put up medicine have, since the great success of Dr. Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although obviously they did not. A number of these Mixtures, Pills, &c, are injurious to females, as they aggravate disease, and accelerate the consumption.

SCROFULA, CURED.

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate dis

ease of the blood. Three persons cured in one house is unprecedented.

THREE CHILDREN

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine—they were afflicted very severely with bad sores have taken only four bottles, it took them away, for which I feel myself under great obligation Yr respectfully

ISAAC W. CRANE, 108 Wooster st.

OPINIONS OF PHYSICIANS.

Dr Townsend is almost daily receiving orders from physicians in different parts of the Union

THE ORIGINAL AND ONLY GENUINE INDIAN MEDICINE.

It is not our wish to trifle with the health of the community We desire to be governed by a sacred regard to truth in whatever is here stated in relation to this extraord nary medicine, and it is this feeling of sincerity and good faith which prompts us again and again to call attention to it We believe that no article has ever been discovered that has conferred a greater amount of good on the community, and the more it is known the better it is appreciated

60,000 Persons

including all ages classes and conditions, among which were a large number of ladies who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up, and every thing else been tried in vain!

To illustrate the use of the **GALVANIC BELT**, suppose the case of a person afflicted with that bane of civilization DYSPEPSIA, or any other Chronic or Nervous Disorder In ordinary cases stimulants are taken, which by their action on the nerves and muscles of the stomach, afford *temporary* relief but which leave the patient in a lower state, and with impaired faculties, after the action thus excited has ceased Now compare this with the effect resulting from the application of the GALVANIC BELT Take a Dyspeptic sufferer in the last stages of symptoms of an attack, and simply tie the Belt around the body using the Magnetic Fluid as directed In a short period the insensible perspiration will act on the Positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative and thence back again to the positive thus keeping up a continuous Galvanic circulation through out the system Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED A NEW LIFE is OFTEN FULLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

and conclusively proves that's

"Truth is stranger than Fiction."

The following letter, narrating one of the most remarkable events in the annals of Medical Science, is from the

Rev. Dr. Landis, a Clergyman

of New Jersey, of distinguished attainments and exalted reputation

SOMER, New Jersey, July 12, 1849

DR A H CHRISTIE—Dear Sir You wish to know of me what has been the result in my own case of the application of THE GALVANIC BELT AND MAGNETIC FLUID My reply is as follows

For about twenty years I have been suffering from Dyspepsia Every year the symptoms became worse, nor could I obtain permanent relief from any course of medical treatment which I adopted I employed skilful and excellent men, but here their prescriptions failed About fourteen years since, in consequence of frequent exposure to the weather, in discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism which for year after year, caused me indescribable anguish In the several years in which the skill of my physicians sometimes afforded no great relief, but this relief was only temporary Further in the winter of '45 and '46 in consequence of preaching in the open air in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require on an indefinite suspension of my pastoral labors, My nervous system was *greatly prostrated*, and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection—thus evincing that these disorders were connected with each other through the medium of the Nervous System My sufferings were indeed severe, and I had no prospect other than being entirely laid aside from the discharge of the duties, and the performance of those labors in which my soul has ever found the highest of her joys

My reasoning from effect to cause, I concluded that the *Nervous System* must be reached, before any hope could be indulged of my obtaining relief from these most distressing maladies In the whole pharmacopœia there seemed to be no remedy or agent which could reach and recuperate my Nervous System, every thing that I has tried for this purpose had completely failed At last I was led by my friends to examine your inventions, and (though with no very sanguine hopes of their efficiency) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID This was in June, 1846 TO MY GREAT ASTONISHMENT, IN TWO DAYS MY DYSPEPSIA HAD BEGUN TO LEAVE ME, IN EIGHT DAYS I WAS ENABLED TO ASSUME MY PASTORAL LABORS, NOR HAVE I SINCE OMITTED A SINGLE SERVICE ON ACCOUNT OF THE BRONCHITIS, AND MY RHEUMATIC AFFECTION ALSO CEASED TO TROUBLE ME. If time permitted, I could fill a sheet of paper with the details of particulars, but I can now only furnish this brief abstract. My Dyspepsia has never returned, the Rheumatism once in a while visits me, but not severely and is easily arrested, and is manifestly being driven from the body upon the joints, and my Bronchial affection is entirely cured. Such is the wonderful and happy results of the experiment

I have recommended the BELT and FLUID to many who have been likewise suffering from neuralgic affections They have tried them, WITH HAPPY RESULTS I BELIEVE IN EVERY CASE.

I am, dear sir, very respectfully yours,

Reliable Evidence of the Efficacy of BUCHAN'S HUNGARIAN BALSAM

[From the Christian Freeman]

While we regret to quote so frequently, we are always pleased to give credit or that which is truly useful, and to give information from which may benefit others A few days ago a brother of ours, from Norway, Me, came into our office in search of the health, whom we did not expect to see again on earth. We received a letter a few weeks since, from another brother resident in the town with him, saying that he was confined to his bed and would not probably continue but a short time Judge then of our surprise when we saw him enter our office He has a slight cough remaining, as it would be natural that he should have, until he has had further time for acquiring strength of lungs But he is in comfortable health The following letter which he addresses to the general Boston Agent for the medicine which has restored him so wonderfully by, we know what medicine has been the instrument of the good work.
